

NATIONS GRAND PRIX 2010 SKIN GUIDELINES

To enable creative freedom in designs rather than provide a definitive skin template I have written the following guidelines. Please read through this carefully. If you have any questions please raise them in the Nations GP area.

SIDE PODS

- 1 RaceDepartment Logo must clearly be displayed. This must be in the RaceDepartment colours as shown. Logo must appear on both sides of the car. Minimum width as shown.

REAR WING END PLATES

- 1 Your country's flag should clearly be displayed in location shown. We will allow it to be scaled to the correct dimensions to show your flag clearly
- 2 Below your country's flag place your country's name. This must be the English name for your country. You may use any font that fits your design
- 3 Place your designated team number in the area shown. You may use any font that fits your design but request that this be of "impact type" and clearly legible
- 4 The lower 1/5th must show the nations logo on a white background. This stripe must continue to the other side of the wing.
- 5 Both end plates must follow these instructions

REAR WING

- 1 Place your country's name in English on the rear wing. You may use any font that fits your design.
- 2 Optional – You can also display your team name on the reverse side of the wing.

COCKPIT AREA

- 1 Place a RaceDepartment logo facing back (for t-cam shots)

FLIP UP WINGS

- 1 Place the i3D logo on both flip ups. You may blend this to your design.

SIDES

- 1 Place the Simbin logo on the sides. Exact location can be chosen by yourself to fit your design. Please ensure it is not obstructed by wheel or barge boards. Minimum dimensions as shown.

NOSE

- 1 Place your country's name written in English on the nose facing in the direction of travel. You may use any font that fits your design.
- 2 Place your country's team number on facing in the direction on travel. You may use any font that fits your design but request that this be of "impact type" and clearly legible
- 3 Place either your countries flag or symbol which defines your country facing in the direction of travel.

FRONT WING

- 1 The lower element must carry the Formula Master logo.

GENERAL NOTES

- 1 Logos will be provided in the skins thread for download.
- 2 Where fonts are left to your choice we expect a single font to be chosen for all areas.
- 3 Skins must be of default size – 2048x1024
- 4 No other sponsors official or unofficial are to be displayed
- 5 You may place your countries name in your own language in other areas if part of the design (ie: across the airbox)
- 6 Only one skin per team.
- 7 Driver suits can be your own design
- 8 Driver helmets can be your own design (note: 1 per team rule)
